Recommendations

We learned about his exhibition last year. We were introduced by our customer who said this **exhibition is very professional** and is entirely focused on solar energy solutions. Today **we met many customers and we are very happy we are here**. As you know Warsaw is the capital of Poland so we already decided that next year we will come again and attend this fair.

We found Solar Expo fair very nice because **we met many great customers - exactly what we were looking for**. It's great for us because when we are making connections online it costs and lot and takes a lot of time. **By coming to PWE fairs we can make great matches with our customers very fast.**

Ptak Warsaw Expo Exhibition was highly recommended by our business partners and exhibition partners so we decided it's a great opportunity to promote our company and our solutions to Polish market. We think this exhibition is a great one, **we had many discussions with potential clients** and we received more inquires than we expected. **Will we come next year? Of course!**
